WE HAVE THE RIGHT CHEMISTRY

A Brief Overview -
Why You Should Work With Us

Harmony in
Chemistry

**Customer satisfaction. Solutions. Partnership.
Good reasons for Kluthe.**

A PARTNERSHIP FOR SUCCESS

The chemical treatment of surfaces can be complex and usually consists of multiple procedures. And we are second to none when it comes to mastering these processes. Since almost 70 years. Because we use our

expertise and skills to get to know our customer's processes down to the smallest detail in order to develop tailor-made and highly efficient solutions. Together, we can make your business thrive even more.

GOOD REASONS FOR KLUTHE

We develop tailor-made product and process solutions:

We are well familiar with the production processes of our customers and develop tailor-made solutions. We determine the optimal product and process order as well as the best application option to achieve the highest quality, efficiency, and profitability.

We make sure our customers' processes are safe:

This is where our process responsibility for integrated treatment processes comes into play – we monitor and intervene proactively before problems may occur. In the rare event of a problem, we react quickly and offer effective solutions.

We are always close to our customers to provide advice and service:

We always strive to be your equal partner. Customer proximity and service are important to us. We are only satisfied when you say: With Kluthe, we have the right chemistry.

We are environmentally responsible:

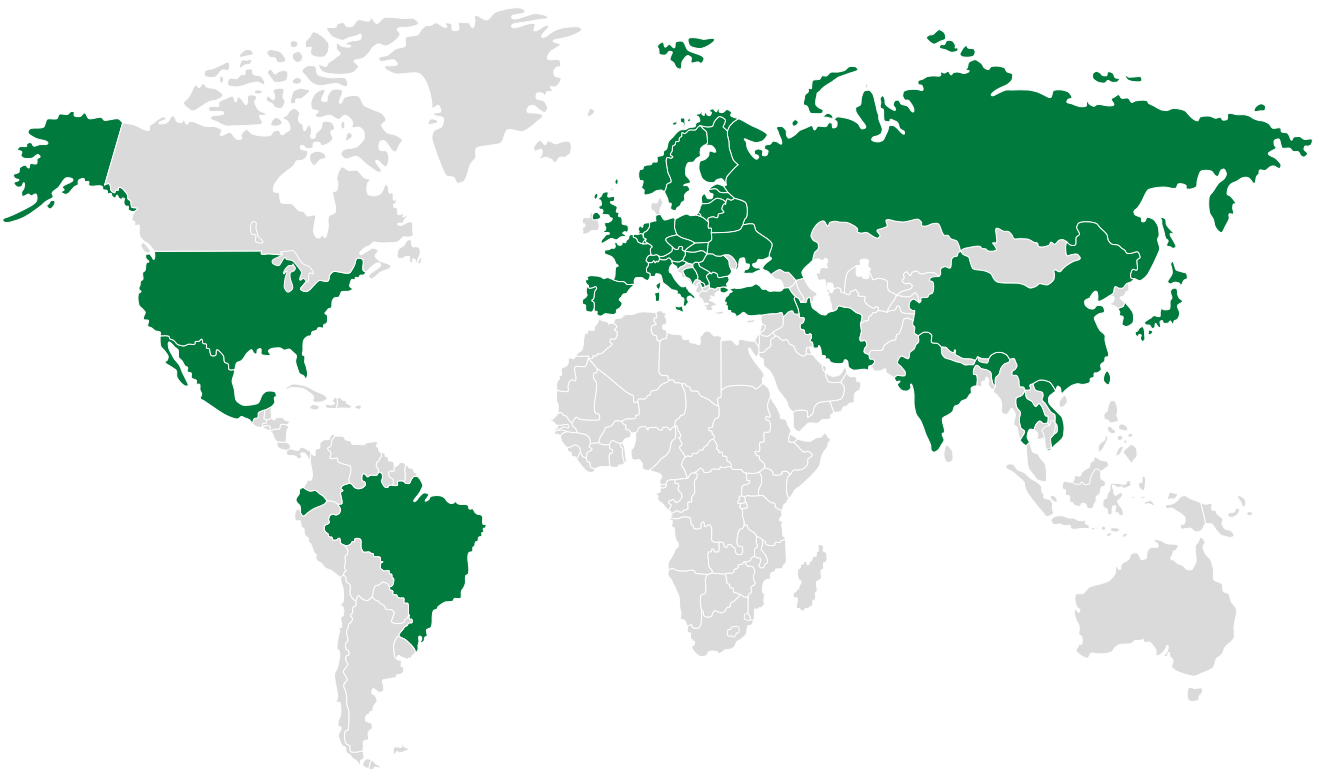

We offer integrated solutions for your production processes in the areas of Metalworking & Cleaning, Pretreatment and Paint Shop Materials. We are also committed to handling our process chemicals in an environmentally friendly way.

KLUTHE AT A GLANCE

- A family business since its founding in 1950 with experience in the development, production and distribution of process chemicals.
